**16** Gluten Free Lunch Menu

**17** Vegan Lunch Menu

**18** Sandwiches, Ciabattas & Pastries

**19** Sauces & Condiments

At Charnallies we endeavor to ensure every customer can enjoy our food regardless of their allergy and dietary requirements. The following food charts allow each customer to confidently select their meal to work around their needs.

Unfortunately, due to preparation areas in our kitchen, we are unable to completely guarantee every item can be 100% free from allergens. However, all of our gluten free and vegan items are prepared separately from the rest of our menu. For all other allergens, please inform your server so we can prepare your meal according to your needs.

At Charnallies, we fry many of our products in **Soya Bean Vegetable Oil**, and therefore cannot guarantee against cross contamination across foods fried with this oil, e.g products containing gluten, fish, and dairy. In which case, items that are fried can be suitably substituted to match your requirements. Just let us know when you are ordering.

The following tables contain information regarding the 14 allergens outlined by the Foods Standards Agency. Some of our food is delivered pre-packaged, and in these cases we cannot guarantee from cross contamination in factories where they were prepared. Additional information is also included in the comments column in the table.

Please feel free to discuss your options with your servers, to make sure you can make the most of our extensive menu, always cooked fresh to order.

| | Cereals containing gluten | | | | | | | | | | | | | | | | | | | |
